SCHOOL MISSION

St. Pius X / St. Leo School is a diverse community forming students in the Catholic faith to excel in academics and service to others.

PRAYERS FOR THE WORLD DURING THE OUTBREAK OF THE CORONAVIRUS

(Archbishop George J. Lucas has asked the faithful in the Archdiocese of Omaha to pray the following prayer, asking for St. Joseph's intercession:)

To you, O blessed Joseph, do we come in our tribulation. Through that charity which bound you to the immaculate Virgin Mother of God and through the paternal love with which you embraced the Child Jesus, we humbly beg you graciously to regard the inheritance which Jesus Christ has purchased by his Blood, and with your power and strength to aid us in our necessities.

O most loving father, ward off from us every contagion of error and corrupting influence;

O our most mighty protector, be propitious to us and from heaven assist us in our struggle with the power of darkness; and, as once you rescued the Child Jesus from deadly peril, so now protect God's children from the snares of the enemy and from all adversity; shield, too, each one of us by your constant protection.

Amen.

A MESSAGE FROM THE PRINCIPAL

Hello St. Pius X / St. Leo Community Members,

I hope you are all continuing to have a great Lenten season. I can only imagine that the past few weeks have been as hectic for you as it has been for us here at your school. It has been a whirlwind past few weeks as we all try to figure out what to do in the uncertain times COVID-19 has caused us all. Most importantly, I hope that you and your families are well, staying healthy and if not, I will continue to pray for your rest and healing.

The COVID-19 crisis is something that is new to us all and it has presented unique challenges for educators. Once we heard that school would be closing for at least one week, we needed to prepare for the very real chance that schools would be closed longer. Luckily, we have the most talented faculty and staff here at SPSL and over that time, our administration and teachers have developed a “SPSL Distance Learning Plan” that we have sent to our families. That being said, this distance learning plan is a fluid plan, aimed at providing faculty and families guidance and resources for as long as we may be out of school and includes creative ways to help our families join in our students' education while they are at home and away from their classrooms.

First and most importantly, we want students to be healthy-- spiritually, physically, mentally, and socially. With this “SPSL Distance Learning Plan”, if school work is stressful to your child during this time, please know that we will work with you to make sure that your child is learning while away from our building but also not at the detriment to their well-being. We do know that research shows that stress levels could be increased by doing school work at home during a crisis, so we want all of our collective efforts with this plan to help and not hurt our students. Our purpose with this plan is not for our families to get bombarded with the at-home learning assignments. In this time, we know that some of our older students may have to babysit their younger siblings, cousins or neighbors. We also know that some families have many students all fighting over the same device or may not have internet access or access to a device at all. We also understand that some parents are having to work overtime to make ends meet while another parent may be working from home. Unfortunately, we know that some parents are scared that they might lose their job. This “SPSL Distance Learning Plan” is meant to be flexible and a support for students and families. We trust your judgment as your students' primary and principal educator on what is feasible and what is best for your family.

We also know that a major challenge at the moment is trying to figure out with your families and kids about what to do when they are home and away from school for so long. In the article [“How to Approach School Closures During COVID-19”](#) , there are lots of great suggestions for families on tips for at home. Most importantly, my suggestion is to talk with your children about what we value as Catholics and with this health crisis, that this is an opportunity for us to remind each other that God does not abandon us and he is always with us during times of great stress and anxiety. Right now is the best time to remember to pray and follow in Jesus Christ's

footsteps and trust in him, treat each and every person with respect as they too are children of God and care for one another, especially our sick and most vulnerable populations. I love the SPSL community because we truly embrace what it means to be a community and live out our Catholic mission. I know that right now, it is very hard to not be frustrated by the inconveniences this crisis has caused and to remember all the time that we are doing these things to keep our most vulnerable brothers and sisters safe and healthy. It is okay to feel frustrated and upset by how our daily lives have been affected, but as parents, grandparents, family members, teachers and parishioners, it is crucial that we try our very best to teach and model what is most important and what really matters to our children during these anxious times. They are looking to us and learning from us all the time, especially in this very moment.

Thank you for all of your continued support and understanding. These are uncertain times that are forcing us all to be patient, flexible and understanding as we navigate this new terrain together. We are learning a lot as we go, and I appreciate all of your empathy and support for our teachers and for our school's leadership. I have received so many emails and phone calls the past week stating that people are praying for our school and parish leaders and I cannot tell you how much that means to me. Thank you so much! Please know that I am praying for all of you and your families too and I appreciate our community's collective optimism, creativity and Catholic spirit.

FACULTY GENERAL GUIDELINES FOR DISTANCE LEARNING

Teachers, please keep the following things in mind when making plans for your students:

- Information for teachers regarding copyrighted materials:
 - **Teachers may only post materials that they have completely created on their own (text and graphics) on the school web page. All other materials are subject to copyright laws, including Teacher Pay Teacher products, publisher handouts/worksheets/blackline masters/a single copy. These materials that are copyrighted by others, and have been purchased by the school or by the teacher with the rights to distribute copies to students, must be shared to students through a private platform, such as Google Classroom or email. [Fair use guidelines](#) permit a teacher to make one copy of any of the following: a chapter from a book; an article from a periodical or newspaper; a short story, short essay, or short poem; a chart, graph, diagram, drawing, cartoon, or picture from a book, periodical, or newspaper. Any materials used under this guideline should also be distributed through a private platform. Scholastic recently shared the following, “As educators worry and wonder about reading books aloud online and copyright laws, Scholastic has changed its policy to adapt to the current coronavirus crisis and unprecedented impact on teachers and students. Through June 20, teachers can post readings of Scholastic books online if they follow the guidelines.” The [guidelines](#) are listed below:**
 - **“1. At the beginning of your video, please state that you are presenting your reading “with permission from Scholastic.”**
 - **2. Our preference is that you post your reading through your school’s platform with limited access for your students. However, we recognize this may not be possible, in which case you may post it through a more publicly accessible platform, such as YouTube.**
 - **3. Since we view this as a way to compensate for the closure of schools, please delete your video or disable access by the end of this current school year, no later than June 30, 2020.**
 - **4. Please reply to tradepublicity@scholastic.com with your name, school, city and state, and the title and author/illustrator of the book you intend to read online. By posting a reading, you are agreeing to abide by the above terms.**
 - **5. Finally, we would love to follow along with your read-aloud, so please tag Scholastic’s social media handles in any post affiliated with it!**

- **Twitter: @Scholastic Instagram: @SchoalsticInc Facebook: @Scholastic YouTube: @Scholastic**
- ***Thank you for all you are doing to help students and their families through this difficult time.”***

- Be consistent with the timeline for content areas as it is laid out in your grade level/ department area overview (listed below).
- Consider including activities that don't require a device such as reading books, journal prompts, interviewing a family member, etc.
- When sharing documents consider the file size (for downloading) and the format type (PDF, Google Doc, etc.) as not all students may have Microsoft Word, etc. available on their device.
- Keep activities simple but purposeful and be sure that the directions given are clear. Be specific about what needs to be completed, when it needs to be completed, if and how it will be assessed (in advance), and how to turn it in. Also make sure students understand what learning platform you are using to post/share the work.
- Allow more time than typical for work to be turned in/submitted as there will be a learning curve as we all adjust to distance learning.
- Provide timely feedback (keep in mind that students are not able to ask questions as easily as they would in a classroom setting, communicate with them about the best ways to contact you for support).
- Check your email frequently during school hours.

LEARNING GOAL: Teachers and parents will partner together to provide learning opportunities for each child while they are at home.

SOCIAL/EMOTIONAL EXPECTATIONS: Pray daily (at a minimum). Establish a set bedtime so students are ready to cooperate for learning time during the day. Have a set learning time each day for academics. It's important to take breaks, to play outside or inside, throughout the day. Limit screen time.

ACADEMIC EXPECTATIONS: Students are expected to engage in learning activities by following the chart below. Watch for emails and read your teacher's webpage weekly. Helpers should go over directions with the student. Then, the student should attempt the work independently, before getting help from the helper.

COMMUNICATION EXPECTATIONS: Each week (by 8:15 Monday morning), teachers will post information about the week ahead and the learning focus on their classroom webpages (<https://spsl.net/classroom/>). If parents have questions, they may email the teacher. Teachers will communicate through email during school hours.

SECOND GRADE OVERVIEW

LEARNING GOAL: Teachers and parents will partner together to provide learning opportunities for each child while they are at home.

SOCIAL/EMOTIONAL EXPECTATIONS: Pray daily (at a minimum). Have your child have a routine at home including a set bedtime on school nights. This will help to ensure that they are ready to learn each day. Also include a set time and place for learning as a part of their regular routine. Finally, incorporating breaks and movement time is also beneficial for your child's mind.

ACADEMIC EXPECTATIONS: We expect the students to work through something independently first, then reach out to a parent/older sibling if they still are not understanding the concept. If after that point, they are still unsure, please reach out to your child's homeroom teacher.

COMMUNICATION EXPECTATIONS: Teachers will email each family by 8:15am Monday morning with academic ideas, goals, etc. for the week ahead. If parents have questions, they may email the teacher. Teachers will communicate through email during school hours. Teachers will post additional communication on the classroom webpage weekly.
