# HUNTINGTON READING ADVENTURE

Join Huntington Learning Center on our **Reading Adventure** and expand your child's imagination! It's important that children stay up to date with important skills like reading so that when they return to the classroom, they haven't missed a beat! There's no better way to do that than with **Huntington Reading Adventure**.

Children can choose any age appropriate books that will take them to outer space, around the world, and to different time periods – and most importantly, help them build a love of reading.
